

M3

M3 Library of Packaging Designs

The M3 Library of resizable packaging standards comes with approx. **600** parametric designs for folding carton, corrugated board, grey chip board and PVC. From Version 2023 on, M3 includes **50** templates for archival storage and conservation boxes.

- A parametric library available both in millimeters and inches.
- Integrated index file with sections for different materials.
- Support of the ECMA and FEFCO standard designs.
- Resizing and automatic structural modification by parameter editing.

M3 Art Library of packaging design

The M3 Art Library of resizable packaging standards has accumulated around **2.300** parametric designs for folding carton, corrugated board, grey board or luxury boxes, rigid honeycomb board and PVC. Together with the **200** patterns of displays, the user has over than **2500** available templates. The full ECMA and FEFCO codes have been parametrized and included in the Library among many others. A parametric

Library available both in millimeters and inches.

M3 & M3 ART

EVERYTHING YOU NEED TO REALIZE PACKAGING AND POP / POS DISPLAYS

M3* and M3 Art* software are the perfect ways to start producing in-house boxes and POP/POS Displays. Using their large parametric library, that includes models for folding carton, corrugated board, grey chip board and rigid honeycomb board, you have virtually endless possibilities. It is a valuable support for any graphic departments.

m3 is a complete library of parametric models and designs, specially designed for Valiani cutting machines. M3 is structured to give the possibility to modify, resize and cut boxes, displays and other 3D objects made with cardboard and many packaging materials.

m3 art is a combination of features that allows graphic designers the flexibility to work directly in Adobe Illustrator using file boxes or POP / POS displays and benefiting from their parameterization.

Native M3 files can be opened in Adobe Illustrator without conversion and can be processed within the same work environment. Focusing on the visual aspect of the design process, M3 Art offers intuitive 3D prototyping and realistic visualization of the different types of material, printing and finishing. This integration allows graphic and CAD software to complement each other by increasing productivity without requiring any effort.

M3 Art is available either in Windows or IOS version.

* optional

Archival Storage and Conservation Boxes

The M3 and M3 Art Library now also includes 50 templates for archival storage and conservation boxes.

- Clam-shell trays
- Storage boxes
- Envelopes
- Multi-Side wraps
- Slips cases

*Available for both, M3 and M3 Art.

M3 ART Library of Luxury Boxes

M3 from version.9 supports grey board designs also known as luxury boxes. Luxury boxes consist of packaging materials that have been developed and tailored to give the goods a distinctive touch. These boxes are usually made with rigid material such as grey board and wrapped by a card of excellent finish to make them more appealing to customers, while still serving their purpose. Some examples of:

- Body and Lid.
- Trays with Hinged Lid.
- Magnetic Closure boxes.
- Shoulder and Neck Boxes.
- Slipcase.

*Only M3 Art.

Integration with Adobe Illustrator

M3 ART packaging software is integrated with Adobe Illustrator. The **plug-in** lets graphic designers easily apply artwork onto structural drawings. Verifying the results in the 3D environment happens quickly and without efforts.

Only M3 Art.

LEGEND

1. Template can be edited and resized directly in Adobe Illustrator.
2. Graphics can be applied directly on AI and visualize through the 3D presenter.
3. A 3D animated PDF can be generated to share the final project before any cutting actions being made.
